ADHA Members: Free      Non-members RDH, Assistants and Dentists: \$50

**Course Description:** This lecture is designed to review the recent Netflix film “The Root Cause” and critically evaluate the statements made. We will review the biological basis for endodontic therapy and how clinical and radiographic success is influenced by the pre-operative pulpal status.

**About the Speaker:** Ryan Duval grew up in Bellevue, WA graduating from the University of Pittsburgh School of Dental Medicine. Following graduation, Dr. Duval practiced as a general dentist in Ellensburg, WA prior to specializing in Endodontics. Dr. Duval earned his Endodontic certificate and master's degree in Endodontics from Case Western Reserve in Cleveland, OH. Dr. Duval has practiced Endodontics in Issaquah, WA prior to moving to Bend, OR where he currently lives and enjoys the outdoors with his wife Jennifer, their son Luke and daughter Paige. In 2017, Dr. Duval achieve a professional dream by earning Diplomate status and becoming a Board Certified Endodontist.
